

ACOSMISM

Meaning: Acosmism is a philosophical doctrine that denies the reality or significance of the cosmos, asserting that the universe is an illusion or a mere manifestation of a higher, non-material reality.

1. The philosophical concept of acosmism challenges our understanding of the universe's existence.
2. In his writings, the author presents acosmism as a radical departure from traditional metaphysical views.
3. Acosmism suggests that the material world is an illusion, overshadowed by a greater reality.
4. Many thinkers have struggled to reconcile acosmism with the empirical nature of scientific inquiry.
5. The implications of acosmism can lead to a profound sense of detachment from the physical world.
6. Her exploration of acosmism opened up a dialogue about the nature of consciousness and existence.
7. He argued that acosmism invites us to reconsider our relationship with the cosmos.
8. Acosmism can be seen as a response to the pervasive materialism of modern society.
9. The debate surrounding acosmism often centers on the validity of subjective experience versus objective reality.
10. In art, acosmism may inspire works that reflect themes of transcendence and the ephemeral nature of life.
