

AFTERTHOUGHT

Meaning: An afterthought is a consideration or idea that is given little importance or attention, often arising after the main point has already been established.

1. The proposal was initially met with skepticism, but it became an afterthought as more evidence emerged.
2. She mentioned the idea as an afterthought, not realizing how much it would resonate with the audience.
3. His apology felt like an afterthought rather than a genuine expression of regret.
4. The details of the project were so well planned that the budget seemed like an afterthought.
5. Her decision to attend the meeting was an afterthought, made only moments before leaving the house.
6. They added a dessert to the menu as an afterthought, but it quickly became a customer favorite.
7. Planning the event was a major task, but the decorations were more of an afterthought.
8. The ending of the novel felt rushed, as if it were an afterthought rather than a carefully crafted conclusion.
9. In the midst of the celebration, his thank-you speech became an afterthought to the festivities.
10. Their conversation moved quickly past the main topic, treating her concerns as an afterthought.
