

ANONYMITY

Meaning: Anonymity is the condition of being unnamed or unidentified, allowing individuals to share information or express opinions without revealing their identity.

1. Anonymity can provide a sense of safety for those sharing sensitive information online.
2. Many people value their anonymity when participating in political discussions on the internet.
3. The artist chose to work under a pseudonym to maintain their anonymity.
4. In an age of constant surveillance, anonymity has become a rare commodity.
5. Anonymity allows individuals to express their opinions without fear of retribution.
6. Some online platforms prioritize user anonymity to encourage open dialogue.
7. He struggled with the balance between seeking fame and maintaining his anonymity.
8. Anonymity can be both empowering and isolating, depending on the context.
9. The debate over anonymity in social media hinges on issues of privacy and accountability.
10. While anonymity can protect whistleblowers, it can also shield malicious behavior.
