

BATTON

Meaning: Baton: a slender, often cylindrical object used in relay races for passing between runners or a symbol of authority or leadership transferred from one person to another.

1. The athlete passed the baton smoothly during the relay race.
2. During the ceremony, she proudly accepted the baton of leadership from her predecessor.
3. The coach emphasized the importance of timing when handing off the baton.
4. He realized he had dropped the baton just before crossing the finish line.
5. In the final lap, the runner sprinted to catch up after a shaky baton exchange.
6. The team practiced their transitions daily to perfect the baton handoff.
7. After a long day, she returned home to find the baton on her desk as a reminder of her commitment.
8. The baton was passed from one generation to the next, symbolizing continuity.
9. She felt a rush of adrenaline as she grasped the baton, ready to run her leg of the race.
10. The colorful baton shone brightly in the sunlight as it was waved in celebration.
