

BRUME

Meaning: Brume is a noun meaning a mist or fog that obscures visibility, often creating a hazy atmosphere.

1. The brume settled over the valley, shrouding everything in a ghostly haze.
2. As dawn broke, the brume began to lift, revealing the vibrant colors of the autumn leaves.
3. The lighthouse stood tall, its light cutting through the thick brume that enveloped the coastline.
4. In literature, brume often symbolizes mystery and the unknown, adding depth to the narrative.
5. Walking through the brume, I felt as if I had entered a dream where reality blurred.
6. The photographer captured the essence of the moment, with brume swirling around the ancient ruins.
7. In the early morning, a delicate brume kissed the surface of the lake, creating a serene scene.
8. The air was heavy with brume, making it difficult to see more than a few feet ahead.
9. He loved the tranquility of the brume, where the world seemed to slow down and breathe.
10. The brume rolled in from the ocean, transforming the landscape into a mystical wonderland.
