

BRUTALISM

Meaning: Brutalism is an architectural style characterized by simple, rugged forms and an emphasis on raw materials, often seen as a reaction against decorative styles.

1. Brutalism emerged as a reaction against the ornate styles of earlier architectural movements.
2. Many people appreciate the raw aesthetic of brutalism for its honesty and functionality.
3. The concrete structures of brutalism often evoke a sense of stark beauty in urban landscapes.
4. Critics argue that brutalism can create an oppressive atmosphere in public spaces.
5. Some iconic examples of brutalism can be found in universities and government buildings worldwide.
6. The use of exposed concrete in brutalism is meant to showcase the materials used in construction.
7. Brutalism has experienced a resurgence in interest among architects and designers in recent years.
8. Fans of brutalism argue that it embodies a spirit of resilience and permanence.
9. The design philosophy of brutalism often emphasizes the social role of architecture.
10. Many brutalist buildings are now considered cultural landmarks, despite their controversial nature.
