

CENSORSHIP

Meaning: Censorship is the suppression or regulation of speech, communication, or information deemed objectionable or harmful by authorities, often to control public opinion and limit creative expression.

1. Censorship can stifle creativity and prevent the free exchange of ideas.
2. Many countries impose strict censorship on the media to control public opinion.
3. The artist protested against censorship by displaying his work in a controversial gallery.
4. Debates about censorship often revolve around the balance between security and freedom of speech.
5. In some societies, censorship is used as a tool to suppress dissent and maintain power.
6. The rise of the internet has complicated traditional forms of censorship.
7. Censorship in literature has shaped the way certain themes are presented to the public.
8. The government faced backlash for its decision to enhance censorship of online content.
9. Censorship can create a climate of fear, leading individuals to self-censor their thoughts.
10. Understanding the implications of censorship is crucial for protecting democratic values.
