

CHAPE

Meaning: Chape: a protective covering or fitting, often made of metal, at the end of a sword or dagger's hilt or scabbard.

1. The chape of the sword glimmered in the sunlight, showcasing its intricate design.
2. After years of wear, the chape needed to be replaced to restore the dagger's former glory.
3. She admired the ornate chape that adorned the hilt of the antique sword.
4. The blacksmith crafted a new chape to fit perfectly with the blade's hilt.
5. In medieval times, a chape was essential for protecting the sword's grip from damage.
6. He polished the chape until it shone brighter than the steel blade itself.
7. The museum displayed a collection of ancient weapons, each with its unique chape.
8. During the restoration, they discovered a hidden inscription on the chape of the sword.
9. The chape not only served a functional purpose but also added to the weapon's aesthetics.
10. As a collector, he sought out rare chapes to complete his assortment of historical weapons.
