

CHOP-LOGIC

Meaning: Chop-logic refers to the practice of arguing or reasoning in a trivial or overly pedantic manner, often focusing on minor details instead of the main issue.

1. The debate quickly devolved into chop-logic, with each side parsing words rather than addressing the real issues.
2. His arguments were filled with chop-logic, making it difficult to ascertain any real point he was trying to make.
3. In discussions about climate change, we can't afford to resort to chop-logic that distracts from the urgency of the situation.
4. Her chop-logic approach to the problem left everyone more confused than when they started.
5. Rather than focusing on solutions, the meeting became a display of chop-logic that led nowhere.
