

CIRRHOUS

Meaning: CIRRHOUS: relating to or characterized by cirrhosis, especially in reference to the hardened, fibrous texture of affected tissue.

1. The patient's liver showed signs of cirrhosis, with a distinctly cirrhous texture upon examination.
2. In advanced stages of liver disease, cirrhous tissue replaces healthy liver cells, leading to impaired function.
3. Doctors explained that the cirrhous condition could progress if the patient did not change their lifestyle.
4. Research indicates that cirrhous livers are more susceptible to developing complications like cancer.
5. The biopsy revealed cirrhous changes, prompting the need for closer monitoring and potential treatment options.
