

CITATOR

Meaning: A citator is a legal research tool that provides information on the history, treatment, and subsequent citations of legal cases, statutes, or regulations.

1. A citator is essential for legal researchers to track the history and treatment of a case.
2. Many law students learn to use a citator to ensure their references are still valid and relevant.
3. The updated citator provided valuable insights into how recent rulings affected previous judgments.
4. Using a citator can save lawyers a significant amount of time in their case preparation.
5. The online citator features advanced search functions to help locate specific legal precedents quickly.
