

CLASSICISM

Meaning: Classicism is an artistic and literary movement that emphasizes the principles of harmony, proportion, and the ideals derived from ancient Greek and Roman culture.

1. Classicism in art and literature often emphasizes harmony, proportion, and the ideals of ancient Greece and Rome.
2. The resurgence of classicism during the Renaissance marked a significant shift in cultural values and artistic expression.
3. Many modern architects draw inspiration from classicism, incorporating Greek and Roman elements into their designs.
4. Classicism advocates for a return to traditional forms and standards, providing a counterpoint to contemporary styles.
5. In music, classicism is characterized by clarity, balance, and adherence to established structures, as seen in the works of composers like Mozart.
