

CLIVERS

Meaning: Clivers are a type of climbing or scrambling plant, particularly known for their sticky, hook-like seeds that cling to clothing and other surfaces.

1. The clivers clung to my clothes as I walked through the overgrown field.
2. In spring, clivers spread rapidly, creating a green carpet across the garden.
3. She carefully removed the clivers from her dog's fur after their walk in the woods.
4. The children enjoyed playing in the meadow, unaware of the clivers that would soon cover them.
5. Clivers can be quite stubborn, often requiring a good tug to dislodge them from surfaces.
