

COCOON

Meaning: Cocoon: a protective covering or shelter, especially one spun by a caterpillar to undergo metamorphosis, or a metaphorical space providing comfort and security.

1. The caterpillar spun a delicate cocoon, preparing for its transformation into a butterfly.
2. In the quiet of her room, she felt like she was wrapped in a cocoon of comfort and safety.
3. The artist used layers of fabric to create a stunning cocoon that enveloped the viewer in warmth.
4. As the storm raged outside, they huddled inside their home, feeling a sense of cocooned security.
5. The scientist studied the silk threads of the cocoon to understand the metamorphosis process better.
