

CODDLE

Meaning: To coddle means to treat someone with excessive care, indulgence, or protection, often leading to dependency.

1. Parents often coddle their children, shielding them from the realities of life.
2. If you coddle your pet too much, it may become overly dependent on you.
3. The coach believed in tough love rather than coddling his athletes to ensure they grew stronger.
4. She was tired of being coddled and wanted to prove her independence to her family.
5. Some people argue that coddling young adults can hinder their ability to face challenges.
