

COLONIZER

Meaning: A colonizer is a person or group that establishes control over a territory and its people, often imposing their culture and governance on the indigenous population.

1. The colonizer imposed their culture and language on the indigenous population.
2. Many colonizers viewed their expansion as a civilizing mission, disregarding the impact on local communities.
3. The legacy of the colonizer's actions can still be felt in the modern socio-political landscape.
4. Historians often debate the motivations behind a colonizer's decisions during the era of exploration.
5. Resistance against the colonizer was a crucial part of the struggle for independence among native peoples.
