

COMMUNICATION

Meaning: Communication is the process of exchanging information, ideas, or feelings between individuals or groups.

1. Effective communication is essential for building strong relationships in both personal and professional settings.
2. The advent of technology has transformed the way we approach communication in our daily lives.
3. Misunderstandings often arise from poor communication, highlighting the need for clarity and active listening.
4. In a globalized world, cross-cultural communication skills are increasingly important for successful collaborations.
5. Nonverbal communication can convey emotions and intentions just as powerfully as spoken words.
