

CONCREW

Meaning: 'CONCREW' refers to a group of workers specialized in handling concrete-related tasks, such as construction, repair, or installation.

1. The architect decided to use concrete for the foundation, ensuring the structure would be solid and durable.
2. After the heavy rain, the crew worked tirelessly to repair the damaged concrete pathways around the park.
3. The innovative design required a specialized team to pour the concrete in layers for better strength and stability.
4. As the sun set, the concrete began to set, leaving a smooth surface ready for the next phase of construction.
5. With the help of modern equipment, the concrete crew finished the job ahead of schedule, impressing the project manager.
