

CONFABULATION

Meaning: Confabulation is the act of fabricating or creating false memories or narratives, often without the intention to deceive, or a casual conversation or discussion.

1. Confabulation can often occur in patients with memory disorders, where they create false memories without intending to deceive.
2. During their conversation, the two friends engaged in a lively confabulation about their favorite childhood memories.
3. The psychologist explained that confabulation is a common phenomenon in certain neurological conditions, leading individuals to fill in gaps in their memory.
4. His confabulation about having met a famous actor left everyone in the room amused and intrigued by his imagination.
5. In literature, confabulation can be a powerful narrative device, allowing characters to construct elaborate backstories that may not be entirely truthful.
