

CONFEDERATION

Meaning: Confederation refers to a union of sovereign states or groups that come together for a common purpose, often to collaborate on political or economic issues while retaining their individual sovereignty.

1. The confederation of states worked together to address common economic challenges.
2. During the late 18th century, the formation of a confederation helped establish a new government framework.
3. The confederation allowed member states to retain their individual sovereignty while benefiting from collective security.
4. Several indigenous tribes formed a confederation to strengthen their political influence and protect their territories.
5. The success of the confederation depended on the willingness of each member to collaborate and compromise.
