CONFEDERATIVE

Meaning: Confederative: relating to a union of sovereign groups or states that retain significant independence while cooperating for common purposes.

1. The confederative structure of the organization allowed for greater autonomy among its member states.

2. In a confederative system, power tends to be decentralized, empowering local governments.

3. The confederative nature of the alliance was intended to foster cooperation without sacrificing individual sovereignty.

4. Historically, confederative arrangements have been a way for diverse groups to unite for common goals while maintaining distinct identities.

5. The debate over whether to adopt a more confederative approach or a centralized one has long been a topic of political discourse.
