

# CONSOCIATIONAL

*Meaning: Consociational refers to a form of governance that seeks to ensure political representation and power-sharing among diverse and often conflicting ethnic or social groups within a society.*

1. The consociational approach to governance aims to ensure representation for diverse ethnic groups.
2. In the context of divided societies, consociational democracy can stabilize political tensions.
3. Critics argue that consociational arrangements may entrench divisions rather than promote integration.
4. The study examined how consociational frameworks impact social cohesion in multi-ethnic nations.
5. Successful consociational agreements often require extensive negotiation and compromise among factions.
