

CONSORTION

Meaning: Consortium: a group or alliance formed for a specific purpose, often involving collaboration among members to achieve common goals.

1. The newly formed consortium aims to tackle environmental issues at a global scale.
2. Members of the consortium gathered to share their research findings and collaborate on future projects.
3. The consortium was praised for its innovative approach to solving complex social problems.
4. In order to enhance their chances of success, several companies joined the consortium to pool their resources.
5. The consortium has become a pivotal force in advocating for sustainable development practices.
