

CONTRACTOR

Meaning: A contractor is a person or company that undertakes a contract to provide services or complete a project, often in construction or related fields.

1. The contractor presented a detailed proposal outlining the project's timeline and budget.
2. After interviewing several candidates, they finally selected a contractor with extensive experience in commercial construction.
3. The contractor was praised for completing the renovation ahead of schedule and under budget.
4. They decided to hire a local contractor to ensure that the work would comply with regional building codes.
5. As the contractor negotiated the terms of the agreement, both parties felt optimistic about the collaboration.
