

CONTRADICTION

Meaning: A contradiction is a situation or statement that asserts the opposite of another, creating a conflict or inconsistency between ideas or actions.

1. The scientist pointed out a fundamental contradiction in the theory that could undermine its validity.
2. His actions were a clear contradiction to the values he publicly claimed to uphold.
3. In literature, a character's internal contradiction can lead to significant development and conflict.
4. The politician faced criticism for a glaring contradiction between his campaign promises and his actions in office.
5. Philosophers often explore the nature of reality through the lens of contradictions in human perception.
