

CONTRAST

Meaning: Contrast refers to the difference or distinction between two or more elements, often highlighting their unique qualities or characteristics.

1. The artist used bold colors to create a striking contrast between light and shadow.
2. In contrast to her calm demeanor, the situation was chaotic and filled with tension.
3. The study highlighted the significant contrast in educational outcomes between urban and rural schools.
4. By placing the old photograph next to the new one, the contrast in quality was immediately evident.
5. We often take for granted the contrast between day and night, which adds depth to our experiences.
