

CORONER

Meaning: A coroner is an official responsible for investigating and determining the cause of death, particularly in cases of sudden or unexplained circumstances.

1. The coroner arrived at the scene to investigate the sudden death.
2. After the autopsy, the coroner released a report detailing the cause of death.
3. Families often seek answers from the coroner when a loved one passes unexpectedly.
4. In some jurisdictions, the coroner is also responsible for determining the manner of death.
5. The coroner's findings can have significant implications for legal proceedings.
