

CORYBANT

Meaning: Corybant: a member of a group of ecstatic dancers and worshippers of the goddess Cybele in ancient Greek mythology, known for their frenzied rituals and celebrations.

1. The ancient Greeks believed that the Corybants were the spirited followers of the goddess Cybele.
2. During the festival, the Corybants would perform wild dances, celebrating the return of spring.
3. In mythology, the Corybants were often depicted wearing elaborate armor and wielding weapons in their ecstatic rituals.
4. Historians suggest that the frenzied music played by the Corybants symbolized a deeper connection to the divine.
5. The worship of the Corybants was characterized by its emphasis on ecstatic experience and communal celebration.
