

COST

Meaning: Cost refers to the amount of money required to obtain or maintain something, often encompassing both immediate and long-term expenses.

1. The cost of living has increased significantly in recent years.
2. Before making a purchase, it's important to consider the long-term costs involved.
3. She was surprised by the high cost of the concert tickets.
4. He is trying to reduce costs by switching to a more energy-efficient appliance.
5. Investing in quality materials can sometimes save you money in the long run, despite the higher upfront cost.
