COUNTERGLOW

Meaning: Counterglow refers to the soft light or illumination that is reflected or cast by a source of light, often seen in the context of a sunset or fireworks, creating a warm or vibrant ambiance.

1. The counterglow of the setting sun cast a warm hue over the horizon.
2. As the fireworks exploded in the night sky, their counterglow illuminated the faces of the cheering crowd.
3. The artist captured the delicate counterglow of the moon reflecting on the still lake in her painting.
4. During the solar eclipse, the counterglow of the sun created a breathtaking halo around the moon.
5. The counterglow from the street lamps created an enchanting atmosphere in the quiet park.
