

CRAGGEDNESS

Meaning: Craggedness refers to the quality or state of being rugged, uneven, or jagged, particularly in relation to natural landscapes like mountains or terrain.

1. The craggedness of the mountains created a dramatic backdrop for the photographer's stunning landscape shots.
2. As we hiked further, the craggedness of the terrain made it increasingly difficult to navigate.
3. The artist captured the craggedness of the cliffs perfectly, showcasing their jagged edges and rugged beauty.
4. Despite the craggedness of the coastline, the secluded beaches offered a serene escape from the bustling city.
5. The craggedness of the rocks added an element of danger to the otherwise peaceful hiking trail.
