

CRAW

Meaning: 'Craw' refers to the crop or throat of a bird, particularly used to describe the part of a crow where food is stored.

1. The crow began to crawl towards the shiny object on the ground.
2. As the sun set, the distant sounds of the crows' crawl echoed through the valley.
3. She watched in fascination as the bird's crawl expanded to swallow its meal.
4. The eerie crawl of the raven sent chills down her spine in the quiet night.
5. He imitated the crawl of a crow, hoping to attract the attention of nearby birds.
