

CROCODILE

Meaning: Crocodile: a large, aquatic reptile characterized by a long snout, powerful jaws, and a stealthy hunting ability, commonly found in tropical regions.

1. The crocodile lurked silently beneath the water's surface, waiting for its next meal.
2. In the wetlands of Africa, the Nile crocodile is known for its powerful jaws and stealthy hunting techniques.
3. Children at the zoo watched in fascination as the massive crocodile basked in the sun near the edge of its enclosure.
4. Crocodiles are often mistaken for alligators, but their snouts and habitat preferences differ significantly.
5. During the rainy season, the riverbanks are teeming with crocodiles, making it a perilous time for unsuspecting animals.
