

CUD

Meaning: Cud is the food that ruminant animals, such as cows, regurgitate and chew again for further digestion.

1. The cow chewed its cud contentedly in the warm afternoon sun.
2. Farmers often observe their livestock to ensure they are properly digesting their cud.
3. After grazing, the sheep returned to the barn to ruminate on their cud.
4. Cud is a vital part of a ruminant's digestive process, helping break down tough plant fibers.
5. The gentle sound of the goats munching on cud created a peaceful atmosphere in the pasture.
