

CYSTOTOMY

Meaning: Cystotomy is a surgical procedure that involves making an incision in the bladder to access its interior, often performed to treat conditions such as bladder stones.

1. Cystotomy is often performed to remove bladder stones in patients suffering from recurrent urinary issues.
2. After the cystotomy procedure, the patient was monitored closely for any signs of infection or complications.
3. The veterinarian explained that a cystotomy might be necessary to address the dog's chronic urinary obstruction.
4. Due to the complexity of the surgery, the cystotomy was scheduled at a specialized surgical center.
5. Recovery from a cystotomy typically involves a strict regimen of rest and pain management.
