

DAGOBA

Meaning: A dagoba is a dome-shaped structure, often used as a stupa or shrine in Buddhist architecture, serving as a place of worship and commemoration.

1. The ancient dagoba stood majestically on the hill, a testament to the culture of the civilization that built it.
2. Pilgrims traveled from far and wide to pay their respects at the sacred dagoba, adorned with intricate carvings.
3. As the sun set, the dagoba illuminated in golden hues, casting a serene glow on the surrounding landscape.
4. During the festival, the community gathered around the dagoba to celebrate their heritage and share stories of the past.
5. The archaeologists carefully excavated the site, hoping to uncover artifacts that might reveal the history of the dagoba.
