

DALTONIAN

Meaning: Daltonian refers to a person who has color blindness, particularly the inability to distinguish between certain colors, most commonly red and green.

1. Many daltonians have learned to identify colors through alternative methods.
2. The artist created a vibrant painting that appealed to both daltonians and those with normal color vision.
3. Daltonians often find it challenging to distinguish between red and green hues.
4. Innovative technology is being developed to assist daltonians in experiencing the world in full color.
5. Understanding the perspectives of daltonians can foster greater empathy in discussions about color perception.
