

# DEADLIGHT

*Meaning: A deadlight is a strong, usually watertight cover or shutter used to protect a ship's porthole or window from water or debris.*

1. The old ship's deadlight was cracked, allowing a glimpse of the stormy sea outside.
2. In the midst of the fierce winds, the captain ordered the deadlight to be secured.
3. The museum featured a display on maritime history, highlighting the importance of deadlights in ship design.
4. He peered through the deadlight, hoping to catch sight of the distant lighthouse.
5. During the storm, the crew had to reinforce the deadlight to prevent water from flooding the cabin.
