

DECEMBER

Meaning: December is the twelfth month of the year, typically associated with winter in the Northern Hemisphere and often marked by holidays and celebrations.

1. December is often filled with festive celebrations and family gatherings.
2. The winter chill in December always makes me crave hot chocolate by the fireplace.
3. Many people reflect on the past year as December comes to a close.
4. In December, the days are shorter, and the nights are longer than any other month.
5. Holiday lights illuminate the streets, creating a magical atmosphere in December.
