

# DEER-NECK

*Meaning: Deer-neck refers to the neck of a deer, often noted for its size and prominence, particularly in taxidermy displays or during hunting observations.*

1. The taxidermist crafted a striking deer-neck mount that became the centerpiece of the cabin's decor.
2. During the autumn hunt, we spotted a magnificent buck with a thick, majestic deer-neck.
3. The biologist noted the unique markings on the deer-neck of the specimen they were studying.
4. In the winter, the deer-neck of the mature stag appeared particularly robust against the snowy backdrop.
5. Local folklore often speaks of a mythical creature with a deer-neck that roams the enchanted forest.
