

DEER

Meaning: Deer are medium to large-sized, hoofed mammals belonging to the Cervidae family, typically characterized by antlers in males and known for their graceful movements in natural habitats.

1. The deer gracefully leaped over the fallen logs in the forest.
2. A family of deer grazed peacefully in the early morning mist.
3. While hiking, we were fortunate enough to spot a majestic buck among the trees.
4. During the winter months, the deer often gather near the river for food.
5. The sight of a deer standing still in the moonlight was truly enchanting.
