

DEFIX

Meaning: Defix (noun): a curse or binding spell, often inscribed on a tablet, intended to invoke divine intervention or influence a person's fate.

1. The ancient ritual involved a defix, believed to bind a person's fate to the wishes of the gods.
2. Scholars discovered a series of defixes inscribed on lead tablets, each one a plea for justice or revenge.
3. In the realm of magic, a defix serves as a powerful tool to invoke supernatural forces in one's favor.
4. The archaeologist carefully examined the defix, intrigued by the curses and spells etched into the metal.
5. Legends say that a defix can trap an enemy's spirit, rendering them powerless against the will of the spellcaster.
