

# DENOTATION

*Meaning: Denotation is the literal or primary meaning of a word, without any associated feelings or ideas.*

1. The denotation of a word refers to its literal meaning, distinct from any connotations it may carry.
2. In poetry, the denotation of a term can often be overshadowed by its emotional implications.
3. Understanding the denotation of difficult vocabulary is essential for effective communication.
4. The denotation of "home" is simply a place where one lives, but its connotation can evoke feelings of warmth and safety.
5. Teachers often emphasize the importance of knowing both the denotation and connotation of words in language studies.
