

DETRUNCATION

Meaning: Detruncation refers to the process of restoring or reconstructing data or information that has been truncated or shortened, allowing for a more complete analysis or understanding.

1. Detruncation of the data set revealed critical patterns that were previously overlooked.
2. The detruncation process allowed researchers to reconstruct the original trajectory of the experiment.
3. In linguistics, detruncation can help restore meaning lost in abbreviated text forms.
4. The detruncation of the narrative provided a richer understanding of the character's motivations.
5. Through detruncation, the artist was able to reclaim the essence of her original vision.
