

DEW

Meaning: Dew is the moisture that condenses from the air and forms tiny droplets on surfaces, especially grass, during the coolness of the night or early morning.

1. The morning dew glistened like tiny diamonds on the grass.
2. As the sun rose, the dew evaporated, leaving the meadow dry and warm.
3. She loved the way the dew clung to the petals of the flowers in her garden.
4. Walking barefoot on the lawn, I felt the coolness of the dew beneath my feet.
5. The dew of early spring often brings a sense of freshness and renewal to the landscape.
6. The morning dew glistened on the grass, creating a sparkling carpet of jewels.
7. As the sun rose higher, the dew began to evaporate, leaving the leaves dry.
8. She loved the fresh scent of the earth after a night of heavy dew.
9. Walking barefoot on the lawn, he felt the cool dew soaking through his toes.
10. The garden looked magical at dawn, with dew drops clinging to every petal and leaf.
11. She stepped outside and felt the cool moisture of the dew on her bare feet.
12. The garden looked enchanting as the dew illuminated the flowers at dawn.
13. As the sun rose higher, the dew evaporated, leaving the earth dry once more.
14. He admired the delicate patterns formed by the dew on the spiderwebs.
