

DEWLAPPED

Meaning: Dewlapped refers to having a fold or flap of skin hanging below the throat, commonly seen in certain reptiles, such as iguanas, often used in display during mating rituals.

1. The dewlapped iguana basked under the sun, its vibrant colors glistening.
2. During the mating season, the male lizards display their dewlapped throats to attract females.
3. In the wild, the dewlapped species often use their throat flaps for territorial displays.
4. The documentary showcased various reptiles, including the striking dewlapped anole.
5. As the sun set, the dewlapped geckos became more active, darting between the foliage.
