

DEWRET

Meaning: Dewret: a fine, light moisture or condensation that forms on surfaces, particularly grass, during the early morning hours.

1. The dewret settled softly on the grass in the early morning light.
2. As the sun rose, the dewret began to evaporate, leaving the landscape shimmering.
3. Children ran barefoot through the dewret, laughing as they felt the coolness beneath their feet.
4. The gardener admired the dewret that clung to the petals of the blooming flowers.
5. With each passing hour, the dewret faded, marking the transition from night to day.
