

DIDACTICISM

Meaning: Didacticism is the practice of conveying moral or educational lessons in a way that may be overly instructive or preachy.

1. The author's novel, while entertaining, veered into didacticism, preaching moral lessons too heavily.
2. Teachers often grapple with the balance between engaging their students and falling into didacticism.
3. Critics argue that the film's didacticism detracted from the emotional depth of the characters.
4. His lectures were rich in didacticism, leaving the audience with valuable insights and knowledge.
5. In literature, didacticism can enhance the narrative when done subtly rather than overtly.
