

DIOICOUS

Meaning: Dioecious refers to a plant species that has distinct male and female individuals.

1. The plant species is dioecious, meaning it has separate male and female individuals.
2. To produce fruit, a dioecious garden needs both male and female plants to thrive.
3. In some dioecious species, pollination occurs via wind, while others rely on insects.
4. Botanists often study dioecious plants to understand their reproductive strategies.
5. A dioecious reproduction system can lead to genetic diversity within plant populations.
