

DIPPER

Meaning: DIPPER: A type of small, aquatic bird known for its ability to dive and forage for food in water, often recognized by its distinctive singing and behavior.

1. The dipper glided gracefully over the surface of the water, searching for small fish.
2. As the sun set, the dipper perched on a branch, singing its melodious evening song.
3. In the cool, clear stream, a dipper dove beneath the surface to catch its prey.
4. The birdwatchers were thrilled to spot the elusive dipper flitting among the rocks.
5. With its distinctive white throat, the dipper is easily recognizable in its natural habitat.
